REFUREC DENMARK 2019

18-19 SEPT COPENHAGEN

Draft Agenda
(version: 19 August 2019)

Tues, 17 SEPT

18:30 - 20:30 Welcome reception (10 mins walk from partner hotel)

Wed, 18 SEPT

09:00 - 09:15 Tea/coffee

Session 1: Welcome

09:15 - 09:30 Welcome activities (Secretariat)

09:30 - 10:15 Opening remarks (Danish Energy Agency)

- Denmark's approach to a balanced energy system
- Biofuel obligation now and after 2020
- Introducing Copenhagen

Session 2: Aviation fuels

Moderation: Denmark

10:15 - 10:20 Introduction & session objectives (DK)

10:20 - 10:40 France's roadmap on decarbonization of aviation (FR)

10:40 - 10:55 Norway's 0.5 blending obligation (NO)

10:55 - 11:15 Coffee break

11:15 - 11:35 Sweden's survey on availability/possibilities (SE)

11:35 - 11:45 Open discussion (DK)

Session 3: Supervision

Moderation: Germany & the Netherlands

11:45 - 12:45 **Requirements of Article 30(9) of the RED II**

- **DE:** MS's vision re. implementation: role of MS, interaction between MS and VS
- **NL:** how will supervision of CBs be executed in different MS? Visions of MS exchange / best practice
- **NL:** what are MS doing with regards to public supervision to prevent fraud?
- **UK:** exploring information behind CB/VS claims

12:45 - 14:00 Lunch, followed by group activity

Session 4: Regulation of waste

Moderation: Denmark & the UK

14:00 - 14:20 **3 questions for opening discussion** (DK)

- What is waste?
- Who defines what is waste?
- Who defines what is waste under Annex IX?

14:20 - 15:00 **Annex IX and other practical issues**

- **IE:** formal determination process in IE, how much Annex IX material is seen on Irish market and other MS
- **NO/DE:** assessing feedstocks for Annex IX; list of wastes + categorization; will MS implement double counting on Annex IX feedstocks
- **FI:** relationship waste regulation & biofuel regulation – how should waste hierarchy be taken in consideration (practical experience)
- **PT:** clarification of the meaning of the word “produced” in the REDII definition 34

15:00 - 15:40 **Fraud**

- **FI:** how do MS surveil and prevent frauds regarding waste / means of surveillance
- **ES:** how many countries fight against fraud in double counting biofuels
- **NL:** fraud case update & discussion

15:40 - 16:00 Coffee break

//agenda continued on next page

Session 5: Group work

Detailed group work tasks and questions will be included in briefing paper 

16:00 - 16:10 Introduction (IS)

16:10 - 17:20 Group work

GROUP 1: FQD

- **FR/IS:** FQD 7a – electricity reporting: exchange on MS methodologies
- **FR/IE:** FQD 6% target: consequences if target not reached ; fines/penalties for non-compliance with target
- **UK:** experience with UERs

GROUP 2: REDII - biomass sustainability criteria

- **FI:** MS solutions to implementation of A) agricultural biomass sustainability criteria and B) forest biomass sustainability criteria
 - o current implementation status in MS
 - o thoughts on mutual recognition and feedstock status
 - o **MS sharing general information on report commissioned by CION regarding fulfillment of country level sustainability criteria**

GROUP 3: REDII – implementation progress & additional fuel categories

- **NL:** how MS implement REDII, issues MS are experiencing, implementation progress
- **UK:** recycled carbon fuels & renewable fuels of non-biological origin: MS update, regulation, role of CBs and VSs for assuring renewability etc.

17:20 - 17:30 Brief group summaries - detailed outcomes circulation after workshop

18:00 - 21:00 City walk along the harbour, followed by visiting an exposition at the *Danish Museum of Art & Design*, followed by networking dinner at the museum

Thurs, 19 SEPT

08:40 - 09:00 Tea/coffee

Session 6: Secretariat update

Moderation: Iceland

09:00 - 09:15 Morning activity & welcome 2nd day

09:15 - 09:30 2020 outlook: hosting countries and secretariat handover

09:30 - 09:45 Upcoming workshop: suggestions for 2020 Portugal workshop

Session 7: Stakeholder exchange

Moderation: tbd

09:45 - 11:00 **European Commission - REDII:** update on implications for regulators, EU database discussions, REDII Art 28, further challenges

11:00 - 11:20 *Coffee break*

11:20 - 12:15 **European Commission - FQD:** update, UERs (availability, MS experience on possible UER projects approval, handling expected volumes, further issues), non-compliance with 6% FQD target

12:15 - 13:15 *Lunch*

13:15 - 14:30 **Novozymes:** conventional and advanced biofuels production & regulation, strategy for 2020 compliance, pathway to 2030

//agenda continued on next page

Session 8: Open agenda

- 14:30 - 15:00 MS Implementation of Guarantees of Origin (SE)
15:00 - 15:20 *Short coffee break*
15:20 - 15:45 Biofuel in non-road mobile machinery (IE)
15:45 - 16:05 Slot available [contact daniilo.krahl@refurec.org](mailto:daniilo.krahl@refurec.org) if interested in contribution
-

Session 9: Workshop summary

- 16:05 - 16:20 Evaluation activity (IS)
16:20 - 16:30 Final remarks (DK)
16:30 End
-

Optional field trip

- 17:00 - 18:30 Afternoon networking activity: discovering Copenhagen's harbour with chartered boat

ABOUT THE ORGANISERS

ABOUT ENERGISTYRELSEN

The workshop will be hosted by the Danish Energy Agency (Energistyrrelsen). The Agency is responsible for tasks linked to energy production, supply and consumption, as well as Danish efforts to reduce carbon emissions. It is also responsible for supporting the economical optimisation of utilities that in addition to energy includes water, waste and telecommunication.

The Danish Energy Agency was established in 1976, and is an agency under the Ministry of Energy, Utilities and Climate. The Agency employs approximately 500 people.

ABOUT REFUREC

REFUREC exists to help address consistent implementation and regulation of the biofuels market, and also to enable the most efficient contact and knowledge sharing between the organisations tasked with regulating renewable fuels in Europe and beyond. By facilitating and fostering stronger working relations between counterparts working in the field throughout Europe, REFUREC aims to minimise the regulatory burden of new rules, and to maximise the RED's overall effectiveness.
