About

REFUREC is the Renewable Fuels Regulators Club, a pan-European informal club of institutions and organisations responsible for regulating biofuels within their respective countries.

REFUREC is targeted to those who are biofuels operators/ administrators or representatives from the national governments that prepare the formation of a national regulator.

REFUREC offers a platform for discussion, information exchange and tackling cross-border issues relating to biofuels market in the European Union and beyond.

REFUREC supports its members through knowledge exchange and advice on issues related to operation and implementation of measures to support biofuels within the EU and beyond.
